THE HIP RESET

Six moves for hip and glute pain

FREE

BY DR. JONATHAN URRUTIA, DC · FOUNDER, RESET

01 —— START HERE

THE HIP RESET

When the muscles around your hip weaken, the joint and tendons take the load. These six moves calm the hip down and start rebuilding the glutes and hip flexors. Once or twice a day.

WHY THIS WORKS

- Side-of-hip pain? Stop crossing your legs and sleeping on that side. Compression keeps it angry.
- A 'tight' psoas is often a weak one. Stretch it and strengthen it.
- Walking feeds the joint. Build up gradually.

GREEN · KEEP GOING

0–3 / 10

Normal and safe. Settles within 24 hours.

AMBER · ADJUST

4–5 / 10

Fewer reps, less range, or lighter load. Keep moving.

RED · FLARE-UP PLAN

6+ / 10

Or pain that's worse the next morning. Switch to the 3-day plan.

EXERCISE PAIN VS. PAIN PAIN

Exercise pain is the muscle working: burning, fatigue, effort. That's fine. **Pain pain** is sharp, pinching, or your old pain getting worse. If it's pain pain, stop, make a note, and do less range or a gentler version.

02 —— THE ROUTINE

DO THIS ONCE OR TWICE A DAY

Slow and controlled. Breathe the whole time. Effort 5–6 out of 10. Every exercise has a video in the RESET library.

1 THE ROUTINE *about 10 minutes*

VIDEO	EXERCISE	DOSE	GYM OPTION	COACHING CUE
X088	Standing Hip Abduction Wall Press	5 × 30 sec / side	Same	Press the outside of the knee into a wall, hold.
X014	Supine Knee Rocks	10 each way	Same	Let the knees fall side to side.
X006	Hip Circles (CARs)	5 / side	Same	Biggest pain-free circle, slow and controlled.
X070	Glute Bridge	2 × 10	Same	Squeeze glutes first, ribs down.
X089	Clamshell	2 × 12 / side	Same, with band	Feet together, open the knee, no rolling back.
X009	Half-Kneeling Psoas Stretch	30 sec / side	Same	Squeeze the back glute, tuck the tail.

HOW TO KNOW IT'S WORKING

After a week, you should move a little easier and the bad moments should be less intense or shorter. That's the alarm turning down. Keep going, then start building real strength. That's what Block 01 is for.

03 —— SAFETY FIRST

WHEN TO SEE A PROVIDER FIRST

This guide is for ordinary aches and stiffness. Stop and get evaluated if any of these apply.

WARNING SIGN	WHY
Groin pain with fever or feeling unwell	Rule out infection. Get seen the same day.
Can't bear weight after a fall	Rule out a hip fracture, especially over 60 or with osteoporosis.
Deep groin pain with long-term steroid use or heavy alcohol use	Rule out loss of blood supply to the hip (avascular necrosis).
History of cancer, or unexplained weight loss	Rule out something systemic.
Hip pain in a runner that worsens with every run and hurts at rest	Rule out a stress fracture.
Numbness, tingling, or weakness down the leg	May be coming from the back. See RESET Back, or get evaluated.

This guide is education, not medical care. It doesn't diagnose or treat any condition or replace an evaluation by your own provider. In an emergency, call 911. Results vary.

04 —— WHAT'S NEXT

RELIEF IS STEP ONE

Feeling better comes first. Strength is what keeps it from coming back. The 12-week program takes you from relief to real strength in four phases.

PLAN	WHAT YOU GET	PRICE
SELF-GUIDED	The full 12-week Block 01 guide, video library, and tracking tools	$197 one time
CUSTOM	Programming tailored to you, weekly guidance and adjustments	$133 / month
DOCTOR-LED	Weekly meeting with Dr. Urrutia, personalized progressions	$333 / month

START THE PROGRAM

Go to **resethybridrecovery.com/hip** to see the full 12-week plan and choose your level of support.

"Movement is medicine. We don't have weak bodies. We have weak systems."
Dr. Jonathan Urrutia, DC · Founder, RESET
