THE DANCER'S FOOT & ANKLE RESET

Six moves for stronger feet and safer landings

FREE

01 —— START HERE

THE DANCER'S FOOT & ANKLE RESET

Every jump, relevé, and landing starts at the foot. These six moves build the arch, ankle, and turnout strength that class doesn't. Do them before class or on rest days.

WHY THIS WORKS

- Range you can't control is range you can get hurt in.
- Turnout comes from the hip, not the knees and feet.
- Not eating enough for your training leads to stress fractures. Fuel the work.

GREEN · KEEP GOING

0–3 / 10

Normal and safe. Settles within 24 hours.

AMBER · ADJUST

4–5 / 10

Fewer reps, less range, or lighter load. Keep moving.

RED · FLARE-UP PLAN

6+ / 10

Or pain that's worse the next morning. Switch to the 3-day plan.

EXERCISE PAIN VS. PAIN PAIN

Exercise pain is the muscle working: burning, fatigue, effort. That's fine. **Pain pain** is sharp, pinching, or your old pain getting worse. If it's pain pain, stop, make a note, and do less range or a gentler version.

02 —— THE ROUTINE

DO THIS ONCE OR TWICE A DAY

Slow and controlled. Breathe the whole time. Effort 5–6 out of 10. Every exercise has a video in the RESET library.

1 THE ROUTINE *about 10 minutes*

VIDEO	EXERCISE	DOSE	GYM OPTION	COACHING CUE
X128	Short Foot (arch doming)	10 × 5-sec hold	Same	Pull the ball of the foot toward the heel, toes long.
X129	Toe Yoga	10 reps	Same	Lift big toe only, then the 4 small toes.
X130	Relevé Rise	2 × 15	Same, holding a DB	Rise straight through the big toe, slow lower.
X131	Single-Leg Relevé	2 × 10 / side	Same	Ankle stays centered, no rolling out.
X135	Turnout Clamshell	2 × 12 / side	Same, with band	Rotate from the deep hip, pelvis still.
X133	Passé Balance	30 sec / side	Same, eyes closed	Stand tall, hold 30 sec, switch.

HOW TO KNOW IT'S WORKING

After a week, you should move a little easier and the bad moments should be less intense or shorter. That's the alarm turning down. Keep going, then start building real strength. That's what Block 01 is for.

03 —— SAFETY FIRST

WHEN TO SEE A PROVIDER FIRST

This guide is for ordinary aches and stiffness. Stop and get evaluated if any of these apply.

WARNING SIGN	WHY
Pinpoint bone pain that worsens with each class	Rule out a stress fracture.
Missed or irregular periods, or repeated bone injuries	Possible under-fueling (RED-S). Talk to a provider.
Ankle gives way or you can't bear weight after a sprain	Rule out a fracture or ligament injury.
Pain that changes how you move or play	That's an injury, not soreness. Get it evaluated first.
A recent injury or surgery you haven't been cleared from	Get clearance, then start here.

This guide is education, not medical care. It doesn't diagnose or treat any condition or replace an evaluation by your own provider. In an emergency, call 911. Results vary.

04 —— WHAT'S NEXT

RELIEF IS STEP ONE

Feeling better comes first. Strength is what keeps it from coming back. The 12-week program takes you from relief to real strength in four phases.

PLAN	WHAT YOU GET	PRICE
SELF-GUIDED	The full 12-week Block 01 guide, video library, and tracking tools	$197 one time
CUSTOM	Programming tailored to you, weekly guidance and adjustments	$133 / month
DOCTOR-LED	Weekly meeting with Dr. Urrutia, personalized progressions	$333 / month

START THE PROGRAM
