THE SHOULDER RESET

Six moves for a sore, stiff shoulder

FREE

BY DR. JONATHAN URRUTIA, DC · FOUNDER, RESET

01 —— START HERE

THE SHOULDER RESET

Most shoulder pain comes from a rotator cuff and shoulder blade that can't keep up with what you ask of them. These six moves calm it down and start building it back. Once or twice a day.

WHY THIS WORKS

- Resting the arm makes it stiffer and weaker.
- The shoulder blade is the base the rotator cuff pulls from. Strengthen the base.
- Rotator cuff tears are common in people with no pain at all. Your scan isn't your story.

GREEN · KEEP GOING

0–3 / 10

Normal and safe. Settles within 24 hours.

AMBER · ADJUST

4–5 / 10

Fewer reps, less range, or lighter load. Keep moving.

RED · FLARE-UP PLAN

6+ / 10

Or pain that's worse the next morning. Switch to the 3-day plan.

EXERCISE PAIN VS. PAIN PAIN

Exercise pain is the muscle working: burning, fatigue, effort. That's fine. **Pain pain** is sharp, pinching, or your old pain getting worse. If it's pain pain, stop, make a note, and do less range or a gentler version.

02 —— THE ROUTINE

DO THIS ONCE OR TWICE A DAY

Slow and controlled. Breathe the whole time. Effort 5–6 out of 10. Every exercise has a video in the RESET library.

1 THE ROUTINE *about 10 minutes*

VIDEO	EXERCISE	DOSE	GYM OPTION	COACHING CUE
X025	External Rotation Isometric	5 × 30 sec / side	Same	Elbow at side, press the back of the hand into a wall.
X023	Pendulum Swings	30 sec each way	Same	Lean on a table, let the arm hang and circle.
X024	Table Slide Flexion	10 reps	Same	Hand on a towel, slide forward as you lean.
X030	Scap Push-Up	2 × 10	Same	Arms straight, spread and pinch the shoulder blades.
X033	Band Pull-Apart	2 × 15	Same	Arms long, pull the band to your chest.
X005	Thoracic Extension over Foam Roller	8 reps	Same	Support the head, extend over the roller in 3 spots.

HOW TO KNOW IT'S WORKING

After a week, you should move a little easier and the bad moments should be less intense or shorter. That's the alarm turning down. Keep going, then start building real strength. That's what Block 01 is for.

03 —— SAFETY FIRST

WHEN TO SEE A PROVIDER FIRST

This guide is for ordinary aches and stiffness. Stop and get evaluated if any of these apply.

WARNING SIGN	WHY
Can't lift your arm at all after a fall or injury	Can mean a significant tear or dislocation. Get evaluated promptly.
Left shoulder, jaw, or arm pain with exertion, sweating, or shortness of breath	Can be your heart. Call 911.
Fever with a hot, swollen shoulder	Rule out infection.
Unexplained weight loss, or history of cancer	Rule out something systemic.
Arm numbness, tingling, or weakness with neck pain	May be coming from the neck. See RESET Neck, or get evaluated.
Obvious deformity after a fall	Rule out a fracture or dislocation.

This guide is education, not medical care. It doesn't diagnose or treat any condition or replace an evaluation by your own provider. In an emergency, call 911. Results vary.

04 —— WHAT'S NEXT

RELIEF IS STEP ONE

Feeling better comes first. Strength is what keeps it from coming back. The 12-week program takes you from relief to real strength in four phases.

PLAN	WHAT YOU GET	PRICE
SELF-GUIDED	The full 12-week Block 01 guide, video library, and tracking tools	$197 one time
CUSTOM	Programming tailored to you, weekly guidance and adjustments	$133 / month
DOCTOR-LED	Weekly meeting with Dr. Urrutia, personalized progressions	$333 / month

START THE PROGRAM

Go to **resethybridrecovery.com/shoulder** to see the full 12-week plan and choose your level of support.

"Movement is medicine. We don't have weak bodies. We have weak systems."
Dr. Jonathan Urrutia, DC · Founder, RESET

RESET

REHAB • RECOVER • TRAIN

MOVEMENT IS MEDICINE.

Relief is step one. Strength keeps it gone.
