THE PROTEIN-FIRST PLAYBOOK

Fat loss that lasts isn't about willpower. It's a simple system: protein at every meal, real strength training, enough steps, and a plan for weekends.

YOUR NUMBERS IN 2 MINUTES

STEP	HOW
Maintenance	Body weight (lb) × 14 if you sit most of the day, × 15 if you're on your feet
Fat-loss target	Maintenance minus 300–500 calories
Protein	About 0.7 g per pound of goal body weight, split over 3–4 meals
Steps	Your current average + 1,000. Build to 8,000+
Weigh-ins	Every morning. Only the 7-day average counts

THE ONE RULE

Every meal starts with a protein. Then vegetables. Then everything else.

03 —— REAL LIFE

EATING OUT WITHOUT GUILT

WHERE	THE PLAY
Mexican restaurant	Fajitas or carne asada plate. Corn tortillas over flour. Pass on the chips or take one handful.
Burger spot	Single patty, or double with no bun. Side salad or fruit instead of fries.
Pizza night	2 slices + a big salad first. Thin crust, add chicken.
Fast food	Grilled chicken sandwich or bowl. Water or diet soda.
Drinks	Each drink is 100–200+ calories. Pick your moments and alternate with water.

Talk to your doctor before changing how you eat if you have a medical condition, take medications that affect blood sugar or blood pressure, are pregnant, or have a history of disordered eating. This guide is education, not medical or nutrition therapy. Results vary.
